

Company: LIGHTMED CORPORATION

Job Title: PRODUCTION TECHNICIAN

Department: PRODUCTION

Reports to: PRODUCTION MANAGER

Company Overview:

LIGHTMED CORPORATION is a medical device and technology company focused on developing, manufacturing and marketing a full spectrum of innovative laser systems for the ophthalmic market. Our product suite includes advanced solutions for cataract, glaucoma, corneal, and retinal diseases.

We have been in business since 1997 with our own R&D and manufacturing facility. All of our products are backed by an industry leading warranty and are guaranteed with proactive routine inspections through our sales and service centers located worldwide.

LIGHTMED provides a relaxed and “family-oriented” work environment with progressive advancement opportunities and a potential for international travel experience.

Job Objective:

We are looking for an enthusiastic Production Technician to join our Production Department. This person will perform a variety of assignments within a manufacturing environment. The technician will be primarily involved with assembly and commissioning of the medical devices, ensuring highest quality and medical laser safety standards.

Main Duties and Responsibilities:

The key requirements may include but are not limited to:

- Required to follow company and departmental procedures.
- Must be able to read and follow process documentation written in English.
- Required to accurately record information within documentation while maintaining strict adherence to FDA, GMP and ISO requirements.
- Maintain safe and clean working environment by complying with procedures, rules, and regulations.
- Perform daily housekeeping of the production areas and equipment as required.
- Maintain strict adherence to compliance, safety standards and standard work instructions, including wearing personal and product protective equipment.
- Ability to lift up to 50 pounds.

Expected Competencies & Qualifications:

- Excellent written/verbal communication skills.
- Attention to detail and excellent organizational skills.
- Ability to work and multitask in a fast-paced environment with firm deadlines.
- Must be able to work independently, take initiative, assume responsibility, and make decisions in an effective and efficient manner.
- Ability to maintain strict confidentiality and discretion.
- Ability to perform complex tasks and to prioritize multiple projects.
- High energy and dedication to excellence.
- Able to learn new systems and processes quickly.
- Prior manufacturing experience, preferably in medical devices.
- Prior experience with alignment of lasers and optical modules is preferred
- Understanding of Manufacturing Quality requirements in FDA medical device regulated environment.

The position offers a great work environment with growth opportunities, supported by a competitive benefits package that includes:

- A competitive salary
- An incentive program based on KPIs that drive our business
- Medical Insurance

Job Type: Full-time

Salary Requirements: Please submit your resume along with your salary requirements to careers@lightmed.com.
